CONTROL PROGRAM

The control program must describe the complete treatment including re-treatment plans for each specific noxious weed species.

- A. Specific noxious weed species of concern associated with proposed project site.

- B. Proposed method of control (or combination of methods) you intend to use to control specific noxious weeds.

1. Chemical (herbicide to be used)

2. Mechanical (tilling, digging, grubbing, burning, etc.)

3. Biological (insects or animal released on site)

4. Cultural (planting competitive vegetation)

C. Timing for control methods (treatment before flowering).

1. Time of year for treatment/application prior to commencement of site development.

2. Time of year for monthly follow-up examination, detection, and treatment/
application.

D. Prevention

1. Weed free certification for seed (specify seed species).

2. Storage of topsoil, fill and gravel (on site or off site).

3. Method proposed to maintain weed free perimeter to prevent off site infestation.

4. Method proposed for early detection of new growth for treatment or re-treatment of
site.

5. Method for vehicle cleaning of noxious weeds prior to relocation to weed free areas.

E. Recommendation of Wasatch County Weed board project approval (required conditions for project plan approval)

The Utah Noxious Weed Act (Title 4, Chapter 17, Rule R68-09) provides for the control and management of noxious weeds in Utah. Private property owners, municipalities, and state agencies are subject to the provisions of the Utah Noxious Weed Act. This act requires all land owners or people in possession of property be responsible for the control of noxious weeds on that property.
